- Various Other Hand Tools

Our service technicians have been factory trained and certified. We service tools manufactured by:

- Stanley
- Huskie
- Greenlee
- Fairmont
- Burndy
- Brock
- Anderson
- Little Mule
- Lug-All
- Ratcliff
- Hook
- A.B. Chance
- H.K. Porter
- Tanaka

We are a factory authorized warranty service center for Stanley Hydraulic Tools and Greenlee.

Quality of work performed and turn around time is our #1 priority. With a complete original manufacturers' parts inventory most tools are shipped back within 48 hours after receipt.

Loaner tools are available in the event the service will take extraordinarily longer than usual.

Pick up service is available. Contact us and we'll make all the arrangements.

Labor rates are competitive within the industry. We do not advertise a relatively low hourly rate to get your attention only to bill you double or triple the actual time. We will beat any advertised standard rate for service of comparable tools.

All hydraulic tools are tested on our diagnostic test bench and hoists are proof load tested to 125% of their capacity after service has been completed.

All tools serviced are covered under a limited warranty. This warranty guarantees repairs at no charge if the following conditions are met.

- 1.) The tool was last serviced by us.
- 2.) The tool fails within 30 days of service.
- 3.) The component or problem that causes failure is consistent with the original reason for the service.

Also available is free tool service and repair training for those who want to service their own tools.

Please feel free to contact us for all your tool service needs. We stand ready to assist you.
