

NON-ROTATING LONG REACH TOOL HOLDERS

The economical long reach bucket tool holder offers the user a secure method to hold long reach tools horizontally on the basket lip and vertically inside the basket. It does not allow the tool holder clip to rotate 360 degrees nor allow the user to physically move the clip from horizontal to vertical position as the 4590 model. The non-rotating version does provide the user a permanent vertical and/or horizontal mount. This unit provides multiple options to accommodate the user's needs as shown below:

Mounting Brackets

4589

4589

4589

Mount two 4589's to hold one tool horizontal.

45891

4589

45891

Mount 4589 and 45891 to hold multiple tools - two vertical and one horizontal.

STAPLE STICK

574

Staple Stick prevents the user from dropping staples or, if not hit square from flying off into the road or into the user's face. Approximately two loaded staple sticks will accommodate a standard distribution pole.

- Holds 12 staples
- Slots 1/8" W x 7/8" L
- Overall dimensions of stick - 7/8" x 3/4" x 14 1/4"
- Diameter of hole to hang stick - 1/2"

Hang the Staple Stick on belt while you climb.

Hold the stick with staple over the ground wire, hammer top of staple to get started, pull staple stick away and set staple.

*Also available: 574L Staple Stick w/1" slots, holds 10 staples.
