32N

A textured grid top surface to prevent shoe slippage.

IMPORTANT! Inspect cleats before use. Replace cleats when the raised ring is worn down on any portion of the screw head. Cleats can be removed and replaced with a screwdriver. Cleats should only be replaced with specially designed cleats. Replacement packages are available. No. 32N-C.

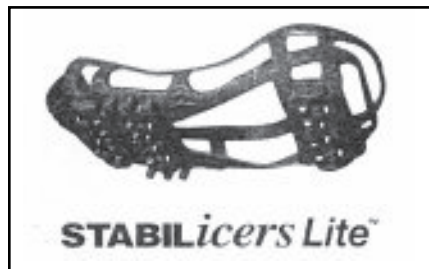

CAUTION! STABILicers should not be used for driving, rock climbing, indoor use or climbing ladders. STABILicers can improve traction in most outdoor winter conditions including ice, snow, concrete, dirt, gravel and asphalt. Extreme caution must be used on any hard or polished surface like steel, ceramics or polished granite. STABILicers cannot prevent all slips and falls. Always use caution when walking on slippery surfaces.
