

FLASHLIGHTS - DISPOSEABLE

RITE-LITE™

The RITE-LITE attaches to the hard hat with mounting strips that allow for quick installation and removal.

Long life zinc batteries give the RITE-LITE superior performance in the most severe conditions. Burn time up to 5 1/2 hours. When the battery is exhausted, remove the old unit and install a new RITE-LITE, which takes only seconds to change!

The RITE-LITE is designed to operate when it's needed most. A long shelf life, long operating duty, and a strong light beam provides the perfect tool for emergency lighting requirements.

HD ELECTRIC COMPANY

RITE-LITE® and RITE-LITE® II are provided with self-adhesive mounting strips.

- One strip installs permanently on the hat.
- One strip adheres to the back of the light.
- Press the mounting strips together and the light mounts where and when you want it.

664640 - RITE-LITE I

78790 - RITE LITE II "FLY EYE"

RITE-LITE™ II

RITE-LITE™ II is the revolutionary light that provides light when you need it, where you need it - EVERYTIME! The RITE-LITE II attaches to the hard hat with mounting strips that allow for quick installation and removal.

Alkaline batteries provide long life for the RITE-LITE II, giving you superior performance in the most severe conditions. Burn time up to 15 1/2 hours. When the batteries are exhausted, remove the old unit and install a new RITE-LITE II, which takes only seconds to change!

The RITE-LITE II is designed to operate when it's needed most. Long shelf life, long operating duty, and a strong light beam provide the perfect tool for emergency lighting requirements.

Are you tired of trying to hold a flashlight and do work at the same time? Try a RITE-LITE® Hard Hat Safety Light. It will give you just the right amount of light when you need it, where you need it - EVERYTIME!

The "Fly-Eye" reflector provides more output, flooding the work area with bright, useable light. No more "spotty" patterns found with old, conventional reflector design.
