PRUNERS

Marvin pruners are designed to make your job easy. Their powerful blades cut limbs up to 1 1/4" in diameter with ease. Yet, they're surprisingly lightweight – a complete cutting head weighs only 1 lb. 12 oz. The cutting blade is made of high-grade steel to permit several resharpenings.

Marvin razor tooth (bi-cut)

S-20

Marvin 330 Tri-edge

S-21

Marvin 330 Tri-edge with hook (hook helps keep blade in cut)

WIRE/CABLE LIFTER

WR-1 Wire Raiser

Jameson's plated steel wire raisers are designed for placing cable on rollers, construction blocks and hardware, and to place blocks on cable in right-of-ways. And when tree branches get in the way of cable placement, Jameson wire raisers can pull the branches away from the lines. Welded and pleated steel rod and steel male ferrule base. No adapter needed.

CL-1 Cable Lifter

Jameson's high-strength aluminum alloy Cable Lifters are designed to safely lift copper, fiber optic and coaxial cable. With it you can place cable on rollers, construction blocks and hardware. Special high-strength aluminum alloy. No adapter needed.

- For medium to large branches
- 3-sided razor teeth
- Impulse hardened teeth for longer life
- Replaceable 13" curved blade
- Tempered steel alloy
- Cushioned pistol-grip handle with finger hook
- Replacement Blade No. 7100-1

PRUNING SAWS

FI-106

- Safety lock
- Easy grip plastic handle
- 6" replaceable blade w/(7tpi) tri-edge teeth
- Nickel plated taper ground blade
- Heavy gauge blade construction

FI-112

This convenient folding style is great for all-around maintenance needs. Compact enough for tool box or back pocket.

- 10" cutting edge with Tri-Edge teeth
- 6 teeth per inch
- Solid hardwood handle
- Wing nut for closure

FI-1214

Specially designed straight blade is ideal for "detail" cutting

- 12" cutting edge with Tri-Edge teeth
- 6 teeth per inch
- Special formula heavy gauge saw steel
- Contoured laminated hardwood handle

FI-1311

Our most popular Tri-Edge saw.

- 13" cutting edge with Tri-Edge teeth
- 6 teeth per inch
- Contoured laminated hardwood handle

FI-K1500

- Enclosed handle for balance & comfort
- 13.5" cutting edge for faster cuts
- "Raker" styled teeth design for less binding in soft wood

FI-1700

- 15" cutting edge
- 5.5 points per inch with Tri-Edge teeth
- Special formula extra heavy gauge saw steel
- Contoured laminated hardwood handle

FI-2200

- 15" cutting edge
- 5 points per inch with Tri-Edge teeth
- Special formula extra heavy gauge saw steel
- Contoured laminated hardwood handle

*For scabbards see page 96.
