SAW SCABBARDS

Buckingham's line of pruning saw scabbards are made from the highest quality top grain leather or rubberized belting material available. They feature a 1/2" nylon washer and double thick leather spacers on the tooth side to ease inserting and removing the saw from the scabbard. A 1 1/8" steel ring is attached to the back 3" down from the top to suspend scabbard and saw closer to the user. Clean out openings on the side and bottom prevent buildup of saw chips and dust in the bottom of the scabbard.

6515C Belting
6515 Leather
Designed to be used with curved blade hand pruning saws with up to a 16" blade.

SAW SCABBARDS

Leg Mounted Pruning Saw Scabbard

6515CS

6016S

This innovative product has some major advantages over the conventional saw scabbard, and comes at a small price. Some benefits of the Leg Mounted Pruning Saw Scabbard include:

- Allows quick and easy access of your pruning saw when working in awkward positions
- Velcro cinch straps provide a secure attachment to your leg
- Strap loops offer adjustment for the length of your leg
- Elastic strap with snap fastens around saw handle preventing it from falling out when not in use
- Designed to fit Banana or dee handled pruning saws with up to a 13" straight or curved blade
- Available in leather or rubberized belting

- 6515S Leather Curved Handle Saws**
- 6515CS Rubberized Belting Curved Handle Saws**
- 6016S Leather Straight Handle Saws**
- 6016CS Rubberized Belting Straight Handle Saws**

NOTE: For pruning saws see page 92.

- 6015C Belting**
- 6015 Leather**
- Pole Saw Scabbard**

Prevents damage to pole saw blades and other equipment when not in use.
3 1/2" x 16" overall length
3" x 15" pocket depth

- 6020 Leather**
- 6020C Belting**
- Hydraulic Chainsaw Scabbard**

3 1/4" x 15" Overall
3 1/4" x 14 1/2" Pocket

NOTE: For hydraulic long reach chainsaws and circular saw see page 103.

- 6517C**
- Climbing Pole Saw Scabbard**

Any one who has ever tried climbing or moving around in a tree with a pole saw knows how awkward it can be. Simply clip the scabbard onto your belt, slip your pole saw into the scabbard, fasten the strap and you're ready to climb. Available in belting material only.

- 62005 Belting**
- 62005C Leather**
- Hydraulic Circle Saw Guard**

Fits circle saws with 9" blades.
